PRODUCT DETAILS

Use: Source of lime, neutralising agent and agricultural purposes
UN Number: Not Hazardous
Hazchem Code: Not Hazardous
Dangerous Goods Class: Not Hazardous
Poison Schedule: Not Hazardous

PHYSICAL DESCRIPTION/PROPERTIES

Appearance Dolomite Lime: Yellow powder, almost insoluble in water
Appearance Garden Lime: White powder, almost insoluble in water
Boiling Point: Nil
Melting Point: Decomposes about 825c
Flashpoint: Non-combustible (does not burn)
Solubility in water: Approximately 14mg per litre

HEALTH HAZARD INFORMATION

Swallowed: Ingestion of large quantities can cause irritability, nausea, dehydration and constipation. Estimated lethal dose for an adult is over 1kg. Considered to be of very low toxicity.
Eye: Irritant. Risk of mechanical scratching to eye surface. May cause lacrimation.
Skin: No harmful effects reported.
Inhaled: Dust will irritate the nose, throat and respiratory system. Symptoms include sneezing and slight nose irritation.
CHRONIC: Regular ingestion of more than 8g per day (calcium carbonate) reported to cause blood and kidney disorders. Prolonged uncontrolled exposure to airborne dust is not recommended due to respiratory illness

FIRST AID

Swallowed: If swallowed, do NOT induce vomiting, give a glass of water.
Eyes: If in eyes, hold eyes open, flush with copious amounts of water for at least 20 Minutes and seek medical attention.
If irritation persists, see a doctor.
Skin: If skin contact occurs, wash with water
Inhaled: Remove from exposure to fresh air. Blow nose and clean nostrils with Moist cotton wool.
First Aid: Non specified.
Advice to Doctor: Product is industrial limestone. Contact poisons information centre.

PRECAUTIONS FOR USE

Engineering Controls: Avoid dust formation.
Personal Protection: Avoid contact with skin and eyes. Avoid breathing the dust. Personal protection to be selected from those recommended below, as appropriate to mode of use, quantity handled and degree of hazard.

- Dust mask
 - Goggles
 - Gloves, rubber or plastic
 - Overalls
- The product is not flammable.

Flammability:

Safe Handling Information

Storage and Handling:

Store in a dry area. Keep container dry and away from acids, alum and ammonium salts.

Spills and Disposal:

For the disposal of small spillages sweep up and remove with ordinary solid waste.

Fire/Explosion Hazard:

Not a fire hazard. May react vigorously with acids, generating carbon dioxide, a simple asphyxiant.

In a fire, decomposes into calcium oxide and carbon dioxide.

Issue date November 2006
